DOMESTIC NEWS. Father Hyacinthe.

New York, November 19th .- Father Hycinthe said in his discourse yesterday: also am a Huguenot, as you are. My wish is not to divide the church, but to reform it. I am called to advecate unity, not separation.

My creed may be summed up in three words, essential even to the Church of Christ, but essential even to the Church of Christ, but especially to the Evangelican part of it—liberty, spirituality, austerity. Since the beginning of this century, you have entered the Episcopal Church, which represents the greatest authority in Protestantism, and is its most conservative decomposition. Protestantism, and is its most conservative denomination. We must not separate authority and liberty. It is our project to unite them. Protestantism represents liberty without authority; Catholicism authority without liberty. Unite them, and we have authority and liberty. France is passing through a crisis. She is not in decadence. She is drinking from the cup of corrupted (Catholicism which is ultranountaries, and The Charles A. Senator Fair and His Children NEW YORK, November 19th. - Senator Fair formed an interviewer yesterday at the Gilsey House: I am here seeking rest and recuperation before proceeding to Washington. I was taken very sick in Chicago and compelled to have my children proceed alone to their school in California. I find the climate of the East agrees with me much better than that of the Pacific slope. I have re-fused to be interviewed on politics or on my domestic affairs. Events to come will vindi-cate me. I am devoting my spare moments to the welfare of my children, my mining property in and about Nevada, and the approaching session of Congress. These are sufficient to occupy my time.

Tyranny of Certain Forms of Trades Union.

New York, November 19th.—A Tribuna editorial, illustrating the tyranny of certain forms of Trades Union, has the following: A poor tailor named Jacobs, in East Fourth street, had a small shop some time ago. He gave employment to about thirty men. The employes struck one day because Jacobs re-fused to discharge the foreman, whom the Tailors' Union wished to discipline. The employer tried to get along, but finally yield-

CHICAGO, November 19th .- A Washington special says: A copy of the Natchez Crusader received here gives an account of even more astounding barbarities than those recently reported in Hazelhurst, Copiah county, Mississippi. EL Paso (Tex.), November 19th.—Early this morning an old man named Garcia, living on the banks of the Rio Grande, two miles east of Paso del Norte, and his wife, were found dead in their house, having been murdered during the night. The bodies presented a horrible appearance, the assassins baving stabbed and cut them again and again. No motive, save private revenge, can be assigned for the murder, as the couple were miserably poor. This makes the third murder this morth and the efficiency this aid in putting a stop to this state of things.

SALVATORA TROAL -The trial of Salvatora Troai, charged with having murdered his wife, Margarete Troai, on their ranch, twelve miles east of Galt, on the 221 of February. 1882, will come up for hearing in Department Two of the Superior Court to-day. It will be remembered at the time of the murder one John Lentini was charged by the Coroner's jury of having committed the crime. He fied the county, and although vigilant search was made for him, he was not captured for fifteen month; afterward. As soon as arrested he charged Troai with the crime, and he was arrested and thrown in prison. He had an examination before Judge Armstrong, in Department One of the Superior Court, and held to answer for the crime. Prior to this the Grand Jury had found a true bill against Lentini, charging him with the murder. Lentini was tried for the crime several weeks since. A man by the name of William Raffety came forward, said that Lentini was innocent, that he witnessed they would make of themselves, and expectthat Lentini was innocent, that he witnessed they would make of themselves, and expect-the murder, and that Troai was the guilty ing to run in our candidates through the disparty. Evidence that was not brought out at the trial of Lentin will be produced at the trial of Troai, which the counsel for the latter claim cannot help but clear him. That a most foul and brutal murder was committed, all know; and that the guilty party, whoever he is, will escape punishment, is the belief of all.

OUR BOOT AND SHOE DEPARTMENT! Plows! Plows! Plows!

No one branch of our business receives more care in the buying. We have carefully studied the wants of the people of this Coast, and selected for our regular lines only such qualities as we could with confidence fully warrant. Our BOOT AND SHOE TRADE has grown rapidly in the past five years, and to-day we, without doubt, command the largest sale in the city. Of one Boot we use over 350 cases yearly. We speak of our RED HOUSE KIP, manufactured to our order in Boston. Over onehalf of our mammoth stock of Boots and Shoes are made expressly for us, our brand (Red House) placed upon them, and all such goods we fully warrant, and our warrant shall be good in all cases. This class of goods we take pleasure in selling and recommending. There is certainly more economy in buying these goods than cheaper work, Still, many want low-priced goods, and to suit all we carry in stock heavy lines of cheaper work. We aim to buy no trash, but to have our cheap grades all that can be expected, and even more. If we offer a Lady's Kid Fox Shoe for \$1, we want to show just as good a shoe as it is possible to procure and sell in a legitimate business at the dollar. We carry a great variety of goods for Ladies, Misses and Children, Men and Boys. We have 63 different styles and price Shoes in Misses' and Children's from one Eastern house alone. There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or ourning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin mikkish bue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness.
